WORKSHOP

**Industrial Board and Faculty of Civil Engineering
GEOBIZ Project**

**"Challenges and innovative methods of cooperation in academia-business education for
the labor market needs"**

Invitation

We invite you to join our workshop on 28.02.2022, organized by the Faculty of Civil Engineering and the GEOBIZ Project to present communicate and analyze the practical effects of the connection between academia and business on the economic development of the country.

Theme: "Challenges and innovative methods of cooperation in academia-business education for the labor market needs"

The University of Pristina as a partner at the GEOBIZ project, respectively the Faculty of Civil Engineering has reached a business agreement for cooperation with the Business companies. In this context, the Industrial Board and the GEOBIZ Project through the Faculty of Civil Engineering are continuing communication and open cooperation with state institutions and business as stakeholders to meet the needs of experts in geodesy, geoinformation and geoinformatics. All this helps the labor market and economic development in our country.

We are looking forward to your active participation in this "academy-business" meeting, and after that to enable our students, future experts to make better professional career, to find quality job and to improve their quality life.

Topics for discussion in the workshop are:

- technology development geoinformation and practice,
- cooperation, challenges Business-Academy (B-A)
- support joint education through B-A cooperation and your expectations.

We look forward to your participation and commitment in this meeting.
